amount (not exceeding \$2,000,000) of the capital stock of THE IRON STEAMBOAT COMPANY, in shares of one hundred dollars each.
This commany is building, and will have in readiness

for the coming summer season, a large fleet of iron steam-boats, especially adapted for the requirements of passen-gers; of great speed, constructed in the most substantial manner, non-combusuble, and with numerous watertight compartments, which will render them incapable of sinking. Contrasted with the ordinary wooden steam-boats, they cannot fail to command, at highly remunera-tive rates, the patronage of the great majority of the

travelling public.

The company has entered into contracts extending over a term of years, under which it has acquired the exclusive right to convey passengers from New Tork and its vicinity to the Iron Pier at Coney Island, and a similar place. In view of the vast number of people who visit one summer resort. It is evident that a line of stramboats possessing these exclusive privileges, con-structed in such manner as to command the highest de-gree of public confidence, and furnished in response to an urgent public demand, must at once prove very profitable.

The contracts already entered into will insure to this company from the outset a business limited only by its capacity, and arrangements are in course of completion with the Eris and Pennsylvania Railroad Companies, under which it will acquire, in addition, a large and prof-itable excursion business. The company will extend its operations as rapidly as exclusive and profitable connec

tions can be consummated.

During the winter months it is the intention of the company to utilize its boats in Southern waters, so far as they can be profitably employed. they can be profusely employed.

The company is organized under the laws of New Jersey, and subscribers to the stock will incur no liability beyond the obligation to pay the amount of their sub-

scriptions.

We recommend this investment as one promising large returns and well worthy the attention and confidence of

the most careful investors. Each subscriber will receive for every \$1,000 of stock allotted and paid for First Mortgage Bonds of the Company (bearing interest at 6 per cent.) to the amount of \$25 The terms of the subscription are as follows:

10 per cent. on allotment, 10 per cent. Feb. 2, 1881, 10 per cent. March 2, 1881, 10 per cent. April 2, 1881, 10 per cent. May 2, 1981, and the remainder in installments of not exceeding 10 per cent. on twenty days' notice previously given. Re-ceipts will be given for each payment, and the Bonds and

Everybody reads THE SUN. In the edi-

ions of this newspaper throughout the year to

morning THE SUN prints a continued story of the lives of real men and women, and of their leeds, plans, loves, hates, and troubles. This story is more varied and more interesting than any romance that was ever devised. III. Good writing in every column, and freahness, originality, accuracy, and decorum in the

less upon its recognized importance than upon its interest to mankind. From morning to

treatment of every subject.

IV. Honest comment. The Sun's habit is to speak out feariessly about men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Democrat or Republican. VI. Absolute independence of partisan or-

ganizations, but unwavering loyalty to true democratic principles. THE SUN believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists, The year 1881 and the years immediately following will probably decide this supremely important contest.
